

# CORDE OBLIQUE

Back Through The Liquid Mirror

Corde Oblique - "**Back through the liquid mirror**"

(european edition: Dark Vinyl/Audioglobe - Germany 2018)

(asian edition - CD + DVD - Dying Art Productions - China 2018)

Back through the liquid mirror (Audio / Video release)

The core concept of the album is about going back to the past of the band, while exploring new feelings. The energy of a live performance is recorded with the same high quality of a studio album, and maintains the power of a live show.

The New release includes songs that have been performed by the band in a completely different way, after several years, in a much more powerful and

dynamic way than the studio version.

The best songs of the band have been 100% audio and video recorded live, at the Splash Studios in Naples.

In addition to the mastermind of the band, Riccardo Prencipe, the album also features members from Ashram and Argine.

Released in European and Chinese editions.

After purchasing the album you will have the chance to receive a complimentary private link giving you access to video of the full concert at high resolution (with backstage and interview), PLUS a private link to the Corde Oblique's performance at Wave Gotik Treffen 2017 (bootleg).

Please email us a photo of your album copy or a screenshot of your digital invoice of purchase at our address: [info@cordeoblique.com](mailto:info@cordeoblique.com)
